Claim Objections

2. Claims 13, 15 and 16 are objected to because of the following informalities.

Appropriate correction is required.

In claim 13, line 2, the phrase "said rotation axis" should be changed to – a rotation axis --.

In claim 15, line 3, the phrase "the specific weight" should be changed to – a specific weight --. In line 3, the phrase "the material" should be changed to – a material --.

In claim 16, line 2, the phrase – for preventing angular shiftings of said rings relative to said rotating body during disengagement of said rings from said positioning members – after the word "body" since there is a lack of function specified for the phrase "adjustable friction means".

Allowable Subject Matter

3. Claims 1-16 are allowable over the prior art of record.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
